Statement PIECE

Luxury finishes are appearing in the kitchen and bath with a focus on metals, furniture finished wood, colors and designs traditionally used in art. Whether you are fond of traditional or modern, enjoy minimalist or abundance in design, your kitchen and bath can express your style as well. The enduring question is, "Is less more, or is more more?" You decide!

Entertaining and luxury homes go hand in hand, but sometimes accidents happen.

SafeStone™

SafeStone™ is a polyester laminate designed to protect the surface of marble, onyx, travertine, and any other type of natural stone surface.

The scratch resistant hard coat protects your surfaces by taking on the normal abuse that would otherwise chip or cleave the exposed stone, but does not change the color of the stone.
